SELECTED WORK

Manufacturing **portfolio.**

Storage tanks. Reactors. Pressure vessels.
Heat exchangers. Sheet metal fabrication.

Crompton Engineering Systems

Hosur, Tamil Nadu

OCTOBER 2026

Manufacturing from Hosur.

Crompton Engineering Systems manufactures pharma equipment, pressure vessels, heat exchangers, storage tanks and custom sheet metal items. Our work spans large fabricated equipment, process assemblies and stainless steel furniture and accessories.

IN-HOUSE FACILITIES

6 kW	Laser cutting machine
200 ton	Press brake
2 M X 10 mm	Thick rolling machine
AC/DC TIG	Welding machine
Laser welding	In-house joining capability

Our team includes RT-passed welders.

Large storage tanks.

Fabrication and dispatch views from our workshop.

Built at scale

Cylindrical tanks with formed ends, supports and access arrangements. Photographed during preparation for transport.

Vertical storage tanks.

A selection of tank configurations, connections and surface finishes.

Workshop fabrication

Finished tank detail

Wrapped for handling

Storage in different forms.

Rectangular and mobile stainless steel fabrication.

Rectangular tank

Mobile tank

Reactors & pressure vessels.

Custom equipment fabrication and assembly.

Fabricated equipment assemblies

Examples of supported cylindrical equipment, flanged connections and tube components in the workshop. Configuration and specifications are defined for each requirement.

Heat exchangers & tube assemblies.

Workshop views of fabricated assemblies and internal construction.

Assembly view

Tube and welded connection detail

Details that support production.

Stainless steel trays, racks and bins.

Custom trays & racks

Stainless steel bins

Examples of formed sheet metal parts, perforated trays, handles and cylindrical containers.

Benches, cupboards & storage.

Fabricated furniture and compartment storage for workplace requirements.

Stainless steel benches

Compartment storage

Our wider range includes cupboards, panels and other stainless steel sheet metal items.

Platforms & access structures.

Fabricated stair & platform

Staircase and raised access platform with handrails, photographed at our workshop.

Our manufacturing range includes SS platforms and custom access fabrications. Dimensions, material and finish can be specified for the intended installation.

Panels, formed sections & assemblies.

From individual components to larger welded fabrications.

Fabricated rectangular assembly

Formed and welded components

Flanged circular sections, segmented bends and fabricated rectangular assemblies illustrate the range of sheet metal work undertaken in our workshop.

Welding & fabrication details.

A closer look at the work behind the finished equipment.
